# HOW WE USE IDEA

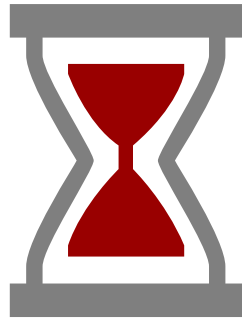

# HOW DOES IT ADD VALUE?

# OVERCOMING CHALLENGES

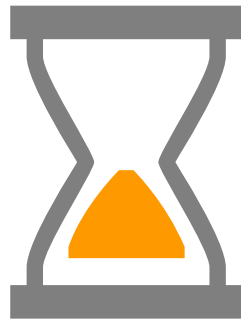

# WHAT DOES THE FUTURE LOOK LIKE?

## **Increasing external audit requirements**

Further use of analytics to identify accounting anomalies.

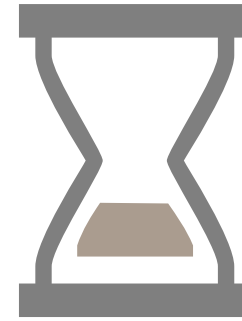

## **Data governance**

What's the best way of making sure we can make decisions that are backed up by the best data?

## **Tax management through data**

Working with clients to identify the core tax risks across businesses.

## **Continuous data analytics**

A never ending stream of information on your data.
